Of those 1297 users, 1206 said they were definitely benefitted by CARDUI. That's 93 out of every 100. What a record!

CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.
